For crushed and broken stone, sand and gravel, and oil mining operations in manufacturing establishments, the number of production, development, and exploration workers was estimated from reported figures for man hours. No data were obtained on other employees at such operations; hence, the same figures are included for production, development, and exploration workers and for all employees at such operations. For value of shipments and receipts, includes the estimated value of minerals produced and used in the same establishment.

Figures for Bituminous Coal Mining are included with those for Metal Mining.

For crushed and broken stone, sand and gravel, and oil mining operations in manufacturing establishments, excludes the cost of purchased machinery installed.

n.e.c. Not elsewhere classified.

Represents gross shipments of the mineral indicated by the industry name less minerals transferred to other establishments for preparation or less minerals received from other establishments for preparation.

Represents expenditures during the year for both new and used plant and equipment.
Represents crude ore mined.
Represents thousands of barrels of crude petroleum, field condensate, and drips shipped or used.
Represents millions of cubic feet of natural gas shipped.
Represents net shipments of natural gas liquids only reported in thousands of barrels.
Figures for primary services performed in other industries are included with those for primary services by establishments classified in the specified industry.
Figures for cost of minerals received for preparation are included with those for cost of supplies, purchases for resale, and purchased fuels and electric energy.
